

C 325

**LEGISLATIVE COUNCIL**

**QUESTION WITHOUT NOTICE  
(Of which some notice has been given)**

**Thursday, 27 June 2013**

Hon Robin Chapple to the Minister for Aboriginal Affairs

I refer to the health hub at the Jigalong community, and I ask:

- (1) Is the dialysis equipment under-used because the attending health professionals will not take the risk of patients being seriously affected if a power failure occurs?
- (2) If yes to (1), what alternative arrangements are in place to treat patients who need dialysis?

---

**I thank the Hon. Member for some notice of this question.**

- (1) This program is not a State Government initiative and is a private arrangement between the community health provider, Puntukurnu Aboriginal Medical Service and Newcrest Mining.
- (2) Not applicable.

**Minister for Aboriginal Affairs**
