C228

**QUESTION WITHOUT NOTICE
(Of which some notice has been given)**

Tuesday, 18 March 2014

Hon Robin Chappie to the Leader of the House representing the Minister for Energy.

I refer to Question Without Notice No. 208 asked on 13 March 2014 regarding the Electricity Market Review, and I ask:

1. Will the efficient mix of different types of capacity include demand management and renewables?
2. If no to (1), why not?
3. If yes to (1), how?

I thank the Hon. Member for some notice of this question.

(1)-(3) The efficient mix of capacity should provide reliable, secure supply to meet customer demand at the lowest cost. An efficient mix of capacity should include demand side management and renewables if they are the most cost-effective way of servicing an aspect of customer demand.

W. Mahon
